The American Headache Society® (AHS) is a professional society of healthcare providers dedicated to the study and treatment of headache and face pain. The Society’s objectives are to promote the exchange of information and ideas concerning the causes and treatments of headache and related painful disorders. Educating physicians, health professionals, and the public, and encouraging scientific research are the primary functions of this organization. AHS activities include an annual scientific meeting, a comprehensive headache symposium, regional symposia for neurologists and family practice physicians, and publication of the journal *Headache®*.

The Scottsdale Headache Symposium® continues to be a successful venue for providing practical, clinical, evidence-based information on the diagnosis, management, and treatment of headache patients. Education is presented in didactic, case-based, evidence-based, panel, and demonstrative formats.

**AHS celebrates 60 years of leading and serving the headache community.**
